# GET MOBILE ADMINISTRATOR

Issue ISO 18013-5 compliant Mobile Driver's Licenses (mDL) or IDs (mID) to all Citizens in your jurisdiction. AAMVA mDL Guidlines require ISO 18013-5.

GET Mobile Administrator creates the connection between the physical DL/ID world and the new world of contactless mobile identity.

- Easy integration to system of record database without programming
- Multiple options for approving citizens for mDL – automated or reviewed
- Up-to-the-minute statistics on mDL adoption
- Keep citizens data and driver status up-to-date without effort
- Meets jurisdiction IT security standards – hosted or on-premise
- Operates globally within USA trust frameworks and DIACC.ca PCTF
- Combined with GET Mobile ID, GET Mobile Administrator provides a complete international solution

GET Mobile Administrator is the quickest connection to start issuing mDLs accurately and easily to citizens. Our simple integration models let you choose the security level and begin provisioning with minimal programming.
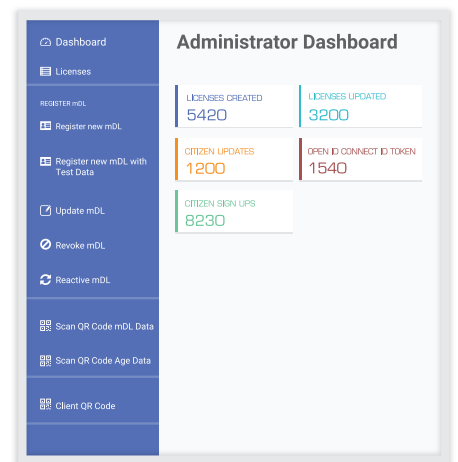

GET Mobile ID is the most comprehensive implementation of ISO 18013-5. It's accepted everywhere around the globe and any location - TSA, airport security, age base purchases...etc.

Scalable to Suit your Needs – Simple to Customize

mDLs can be managed and provisioned into GET Mobile ID, the industry-leading ISO 18013-5 compliant Mobile Identity app for both iOS and Android.

Additionally, GET Mobile Administrator and the GET Mobile ID Engine can be integrated into your current mobile application. Either way, you can meet all AAMVA Guidelines and Federal and International mDL standards.
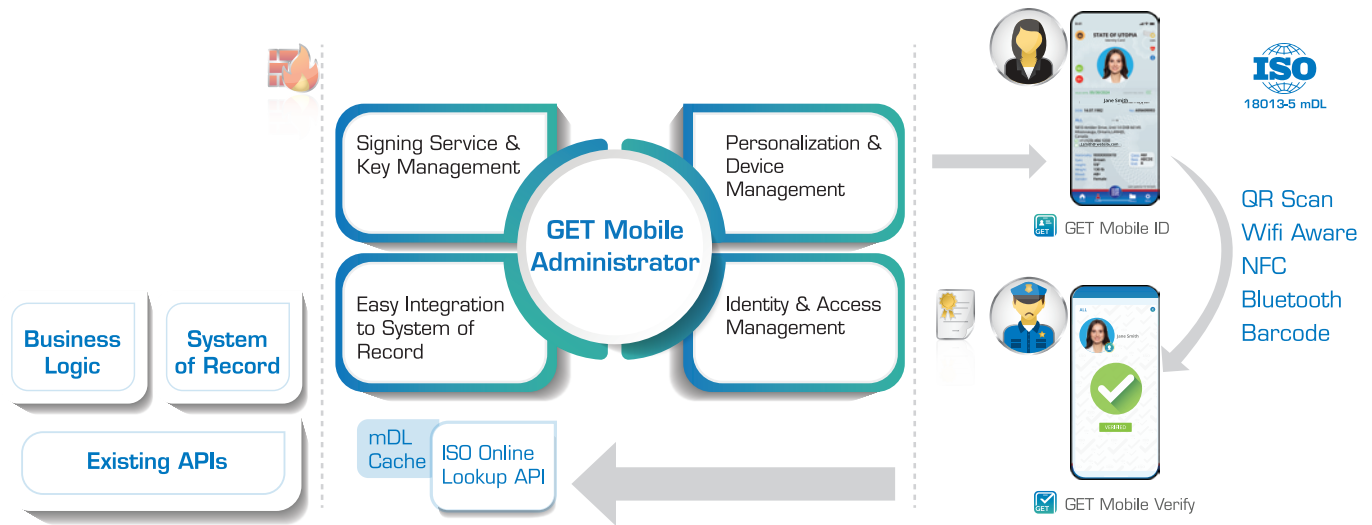

As leaders in the industry and the standards, GET Group North America can bring security and interoperability to your customers and GET Mobile Administrator is the tool to securely enable your citizens' mobile lives.

Key Features & Benefits

ISO 18013-5 fully compliant	Citizens can securely use their mDL everywhere. Relying Parties have choices when accepting
Connects the issuer to the GET Mobile ID App & Services infrastructure	GET Mobile Administrator issues official government ID onto citizens' phones
Quick-Connect to DMV System of Record	mDLs are automatically updated when online, minimal programming necessary
Signing Service managed for the issuing authority	GET Mobile Administrator uses industry-leading key generation and protection technology. Hassle-free security for issuers and consumers
In-Person provisioning at your offices for new recipients of mDL	GET Mobile Administrator provides options for provisioning citizens in your office with minimal effort. GET Mobile ID can even provide a temporary identification document
Remote "Selfie" provisioning	Using passport level biometric verification against the system of record means accuracy on both iOS and Android – no imposters. Quick at-home provisioning reduces DMV traffic
Administrator Dashboard	Statistics and information that keeps you up-to-date with adoption and what's happening with your mDL ecosystem without compromising privacy
